

FOR EVEN BETTER DELIVERIES – TAP THE APP!

We are delighted to announce a great new way for you and your customers to track and trace deliveries with the launch of XDP Mobile – a new app available on both Google Play and the App Store to help you and your customers with everything related to their delivery through XDP.

From tracking the driver's location, adding delivery instructions and changing the delivery date to seeing proof of delivery and consignment images and notifications, this is the very best way to have all the information you need at your fingertips!

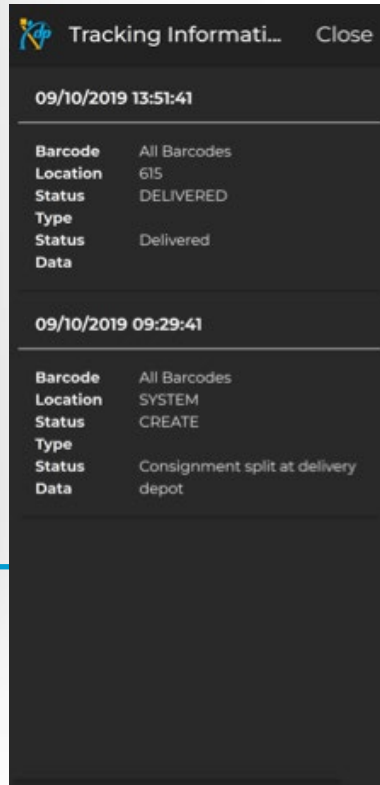

We would love for you to download the app for your own use, and to encourage your customers to download the app, free of charge, for a great experience whenever they order!

Simply search XDP on the App Store or Google Play and get started today!
